Dear Megan

Thank you for your response on Greenland comments regarding the draft Espoo Report prepared by Baffinland.

The information requested by Greenland regarding the transboundary effects from the Mary River Project is in line with the Espoo Convention. Greenland does not find that the draft Espoo Report from Baffinland meets the requirements of Article 4 and Appendix II of the Espoo Convention.

The response from Baffinland gives Greenland the understanding, that Baffinland will not make any further assessments or evaluations regarding the transboundary effects of the project and hence the requests from Greenland will not be met.

Greenland does not find this satisfactory and will address our concerns regarding the potential transboundary effects from the project in connection with the public consultation process in Greenland.

Kind regards

Tilde Roland Høberg
